

PACTO PELA EDUCAÇÃO DO PARÁ FORUM 2014

Pact's goals, in line with Synergos' mission:

Reduce poverty and inequality

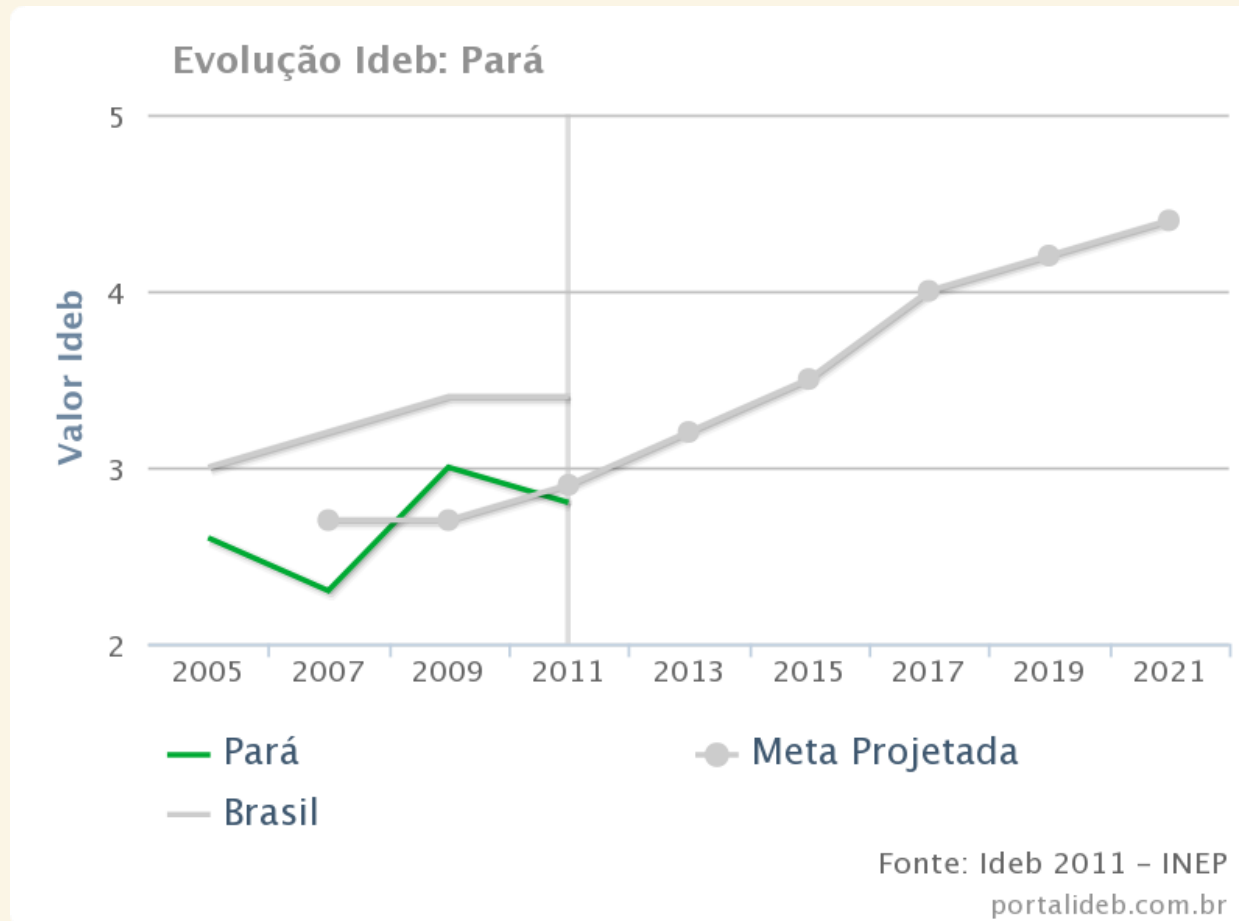

Improve the quality of public education
(by at least 30% on all indexes by end of 2017)

Promote new approach to public
administration:

- Management for results
- Integration (levels, sectors, govt agencies)
- Culture of motivation, and ownership
- Decentralized and participative governance

Pará performs poorly compared to other states in Brazil

Of every 100 pupils in the public system only 30 will graduate from high school and only 1 will reach satisfactory level in Math.

This happens in the context of huge investments and economic growth...

...which means that Pará's people will not benefit from the wealth of their land (rich state, poor people)

We are working with a strong Strategic Partners Group
